# TENNESSEE ASSOCIATION OF FLOODPLAIN MANAGEMENT

## About TN AFPM

The Tennessee Association of Floodplain Management (TN AFPM) brings together people with a common interest in floodplain management. Members include concerned citizens, public employees and elected officials, engineers, planners, contractors, lenders, insurance agents, real estate professionals, students, corporate partners and local, state and federal agencies.

Our objectives include promoting interest in flood damage abatement, improving cooperation among government agencies, and encouraging innovative approaches to managing Tennessee's floodplains. In addition, we believe a unified membership can present one strong voice to communicate with state legislators on flood-related issues.

TN AFPM was organized in 2009 and is currently an association of the Association of State Floodplain Managers, Inc. We are working hard to achieve "Chapter" status of the Association of State Floodplain Managers, Inc.

**TN AFPM Website:**  
<http://www.tnafpm.com/>

## TN AFPM Purpose

Purpose of the Tennessee Association of Floodplain Management are:

1. To promote public awareness of proper floodplain management;
2. To promote the professional status of floodplain management and secure all benefits resulting there from;
3. To enhance cooperation and to exchange information among various related private organizations; individuals; and local, state, and federal agencies;
4. To keep individuals concerned with proper floodplain management well informed through educational and professional seminars and to provide a method for dissemination of information, both general and technical;
5. To inform concerned individuals of pending floodplain legislation and other related floodplain management matters;
6. To study and support legislation pertinent and necessary to the effective implementation of floodplain management regulations.

## TN AFPM Mission

### TN AFPM Mission

To promote and provide assistance for the responsible management of Special Flood Hazard Areas (SFHA) through education, cooperation and communication, thereby protecting the natural and beneficial functions of Tennessee's floodplains.
